

DIGITALS DUROMETERS SHORE

SCHEDA TECNICA

Tools for measuring the hardness of materials such as rubber, plastic and allied products that ensure accuracy and compliance with international standards.

- **Shore A:** for soft materials such as rubber, elastomers and other rubbery materials
- **Shore C:** for softer materials than the A scale, such as sponges and foam
- **Shore D:** for harder materials than the A scale, such as plastic, Formica, and plexiglass epoxides.

Technical Features			
	Shore A	Shore C	Shore D
Display	Hardness, the average value, maximum value		
Measure Range	0-100 HA	0-100 HC	0-100 HD
Measure Deviation	<1% H		
Resolution	0,1 H		
Auto power off	yes		
Uscita dati	RS232 interface		
Condizioni di esercizio	da 0°C a 40°C		
Alimentazione	4 battery 1,5V tipo AAA (UM-4)		
Indicatore batteria	Battery indicator		
Peso (batteria esclusa)	170 gr		
Accessori opzionali	Software and cable		

Standard		
ISO	868	7619
ASTM	D2240	
DIN	53505	
JIS	K 6253	

Code	Description
40220110	Digital Durometer Shore A
40220111	Digital Durometer Shore C
40220112	Digital Durometer Shore D
40220114	Cable RS232- USB and software
